# What makes ProVia Door Professional - Class?

ProVia Door is committed to making doors the professional way; doors individually customized for homeowners to the highest standards of durability, security and energy efficiency in the residential market. A clear difference so defining that it has established a new category of professional-class doors, a better alternative to consumer-grade doors.

## **Beauty**

A beautiful ProVia Door entry system will always greet your guests with classic elegance and style!

## **Durability**

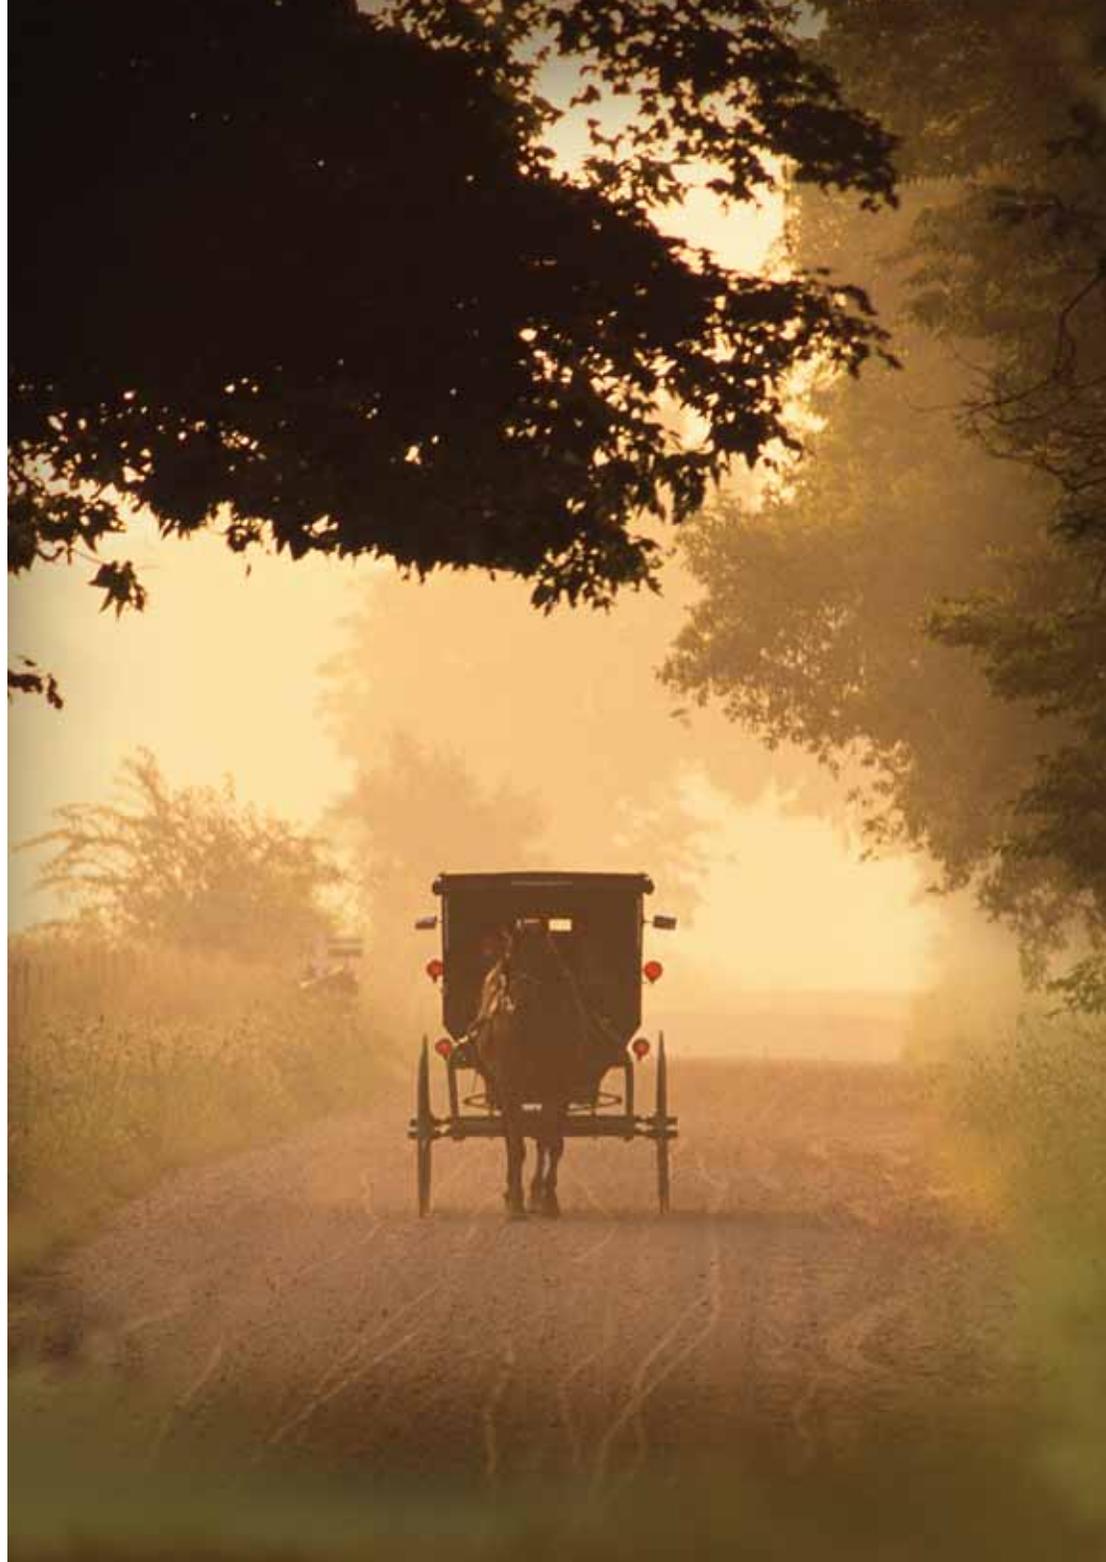

Made with the finest materials and backed by our Lifetime Limited Transferable Warranty, our durability can't be beat.

## **Security**

We focus on the strength and security of every door so you can focus on what's really important. Your life.

## **Energy Efficiency**

Engineered to keep the elements at bay and your home comfortable all year long.

*We've been building a reputation for quality since our company was founded over 30 years ago near Sugarcreek, Ohio, in the heart of Amish country, an area well known for quality and craftsmanship.*

*While old-world craftsmanship is very much a part of our culture, it's supported by modern design techniques and state-of-the-art manufacturing processes. We've created the perfect balance between traditional quality and modern technology.*

# Customized for You!

An entry system is a reflection of you and your style. What ProVia Door offers is the freedom to have a door just the way you want, perfectly complementing your personality. Each made-to-measure door is a creation of its own—uniquely customized in 4 easy steps:

1. Choose from beautiful **Signet®** or **Heritage™** Fiberglass or **Legacy™** Woodgrain Textured or Smooth Steel.
2. Select the perfect **door style** to complement your home and your personality.
3. Create the perfect entry from a wide range of **glass options** ranging from leaded glass to Inspirations™ Art Glass.
4. Add the finishing touches of **hardware & accessories** to welcome friends and family for years to come.

# Environmental Stewardship

Recognized for leading the way in saving energy, helping to protect the environment, and educating consumers about energy efficient products...

...ProVia Door has earned the prestigious 2009 ENERGY STAR Sustained Excellence Award in door manufacturing! This award is given to organizations that have won Partner of the Year three or more consecutive years.

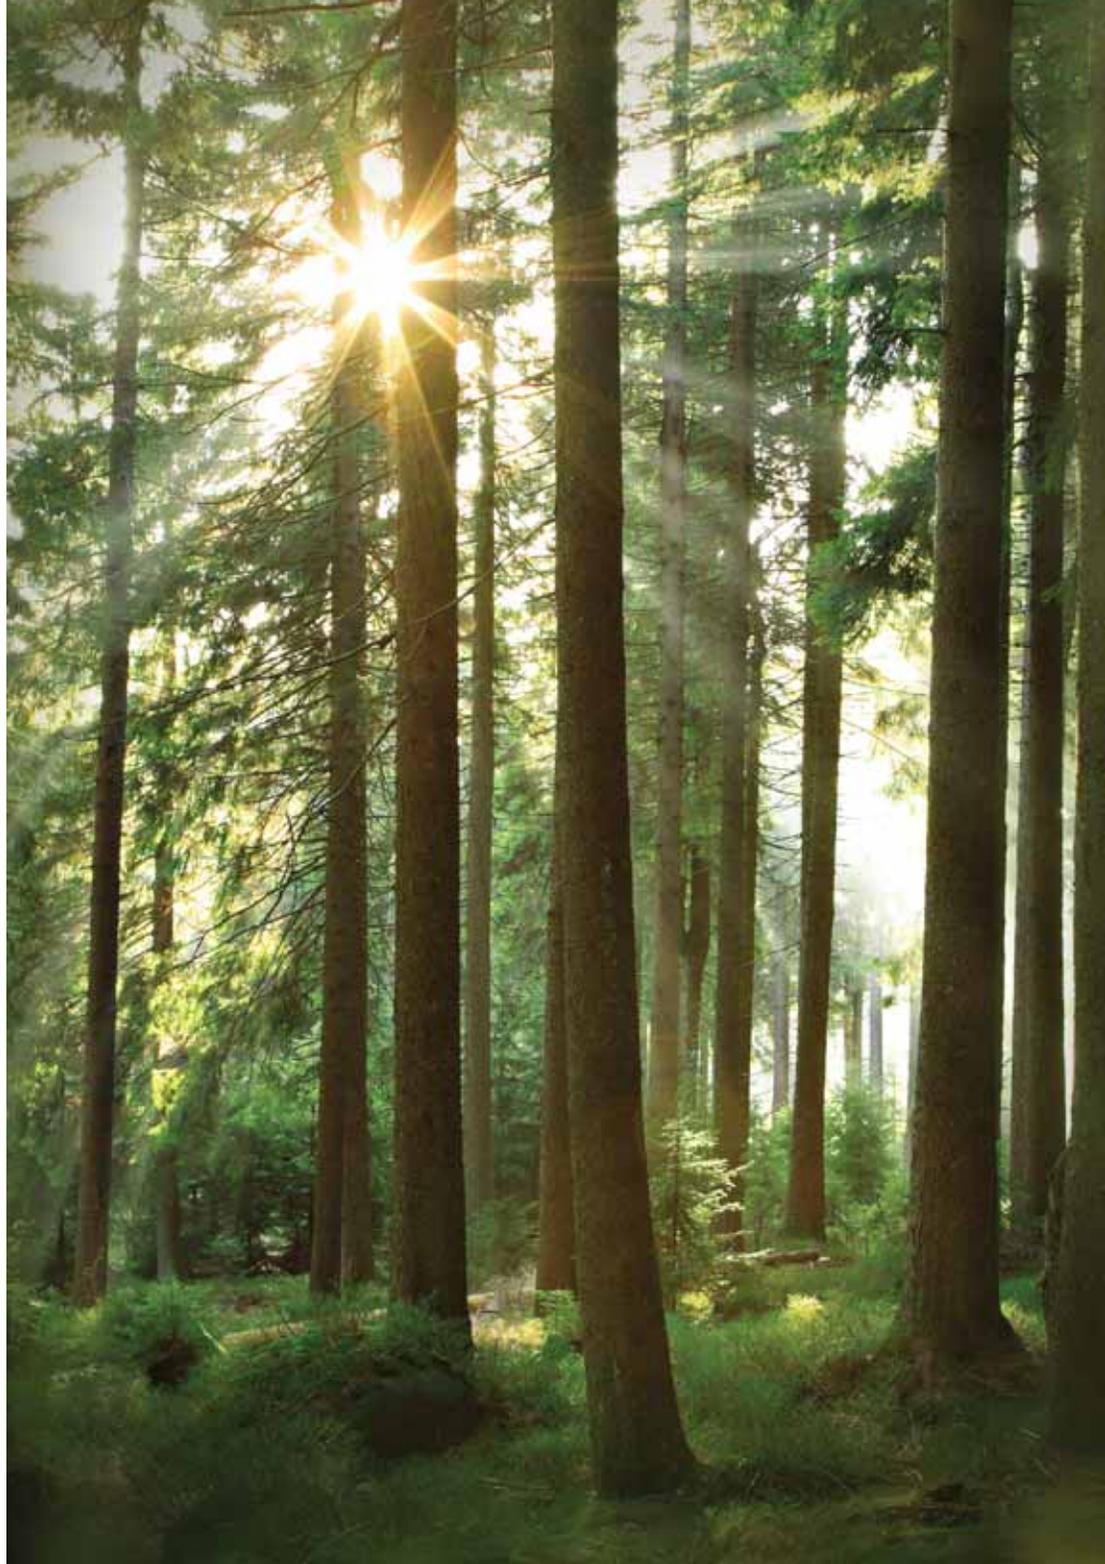

*All Entry Systems shown in this catalog are ENERGY STAR® qualified, unless otherwise noted.*

**ENERGY STAR products offer you:**

- Savings on heating and cooling costs
- A more comfortable living space
- Added value to the appraisal of your home

The ENERGY STAR Program was created by the U.S. Department of Energy and the U.S. Environmental Protection Agency to make it easy for consumers to choose the most energy efficient products. The ENERGY STAR label identifies NFRC certified products that meet or exceed federal energy efficiency standards.

*At ProVia Door, not only do we manufacture energy efficient products, but we also exercise corporate environmental stewardship. Here are a few examples:*

We recycle paper, metals and glass.

Our Pollution Prevention Program dramatically reduced solvent usage by over 33% since 2002.

To save fuel, our trucks use the TriPac Idle Reduction and Temperature Management System.

Paperless online ordering and internal paperless fax system reduces paper use.

# Tai lored

just for your home...

Nothing feels quite as good as well-tailored clothing, tailored to your size, shape, and style preference. Off-the-rack clothing just doesn't fit everyone's measurements. Similarly, off-the-rack doors fall short of expectations in the same way.

The materials as well as the workmanship that go into custom made doors is of exceptional quality and durability, and far exceeds what is available as ready-made. Unlike consumer-grade doors, professional-class doors are customized to your exact measurements for a better fit and a more secure and energy efficient door.

...Entry Systems custom tailored for you -  
that's The Professional Way!

# What makes a Professional - Class door?

Our **stains are hand-applied** by professionals then oven-cured for maximum beauty and durability. State-of-the-art electrostatic paint application ensures a beautiful even coat.

Our **polyurethane core** reduces energy loss.

We include our **20-gauge security plate** for extra strength and to help prevent kick-ins.

**Heavy-duty ball bearing hinges** come standard with every entry system.

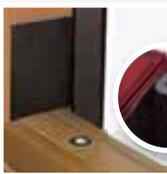

We include a **solid brass fully adjustable strike plate** of our own exclusive design. This unique 2-piece construction makes our doors easier to custom fit.

The **dust box** in the deadbolt strike provides a barrier to air infiltration while providing a neat appearance that most other door manufacturers don't provide.

Our exclusive **Sahara™ heavy-duty extruded threshold** has a 1½" wide thermal barrier oak-like riser that will not warp or rot while providing excellent energy efficiency. Also available with an anodized brass or bronze finish. Bronze threshold comes with a color coordinated riser.

The energy efficient **Q-Lon weatherstripping** runs along the top and sides of the door and interlocks with the **Q-Lon corner seal** for the most efficient seal you'll find for keeping moisture, air and dirt out of your home.

**Bulb and blade** sweep virtually eliminates drafts keeping your home comfortable.

**High-performance, heat resistant window trim**

is warranted not to warp, crack or pull away from the door, even in sunny or higher temperature applications.

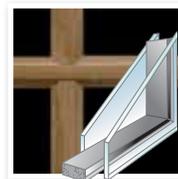

Highly skilled craftsmen assemble our Decorative Glass by precisely cutting, mitering and soldering each component into artistically designed patterns. Art glass seeks visual character through aesthetic imperfections. It achieves this through textural waves and striations, random seeds (air bubbles) and a variety of other effects. Each sheet is unique and adds beauty to any home.

Our **INSPIRATIONS™ Art Glass** offers color accents in a wide range of designs that will make a unique statement your neighbors will be sure to notice.

Your home is unique and deserves to have **custom glass options** like our ComforTech Warm Edge Glazing Systems, internal blinds, and many grid patterns and colors.

We offer **hardware from Emtek® and Schlage®** that provides some of the most stylish, durable hardware available today.

Rot-resistant wood frame and brickmold is treated with **PineGuard™** and carries a Lifetime Warranty, and is available with **PVC vinyl coated aluminum frame cladding** outside.

Our **2½" casing** conveniently covers paint lines providing a professional installation. **Also available in 3½"**. Choose from Cherry, Mahogany, Oak and Poplar.

**Steel L-Frame**

*Our Steel L-Frame is a great solution when you do not wish to remove your existing wood frame, however, entry systems with the steel L-frame are not ENERGY STAR qualified.*

Available on Signet and select Legacy door styles.

**Aluminum door stop** provides greater security and is more durable than wood.

**Q-Lon Seal** for superior energy efficiency.

**18-gauge steel L-frame with a 12-gauge hinge plate** welded on for extra strength and security

...now that's a better alternative to consumer-grade!

# Signet<sup>®</sup> fiberglass doors

Signet Fiberglass doors are available in Cherry, Mahogany and Oak Series. Structurally, the Signet door is far superior to traditional fiberglass doors with robust hardwood stiles and rails dovetailed at each corner. All Signet fiberglass doors exhibit our exclusive DuraFuse™ finishing system featuring P<sup>3</sup> Fusion, allowing us to offer an industry-best 10-year finish warranty!

- The authentic wood look is made possible by using **cutting-edge nickel vapor deposition technology**.
- **Scientifically formulated compounds** provide superior resistance to denting, splitting, cracking, and warping.
- **High-definition panel profile** creates excellent shadow lines and distinct panel designs.
- The revolutionary **DuraFuse Finishing System featuring P<sup>3</sup> Fusion** yields unprecedented finish durability.
- **4 1/4" Strike stile with square-edge design** provides a solid mounting surface for decorative hardware and superior structural integrity.
- **A high-performance, composite material** is utilized on all Signet fiberglass bottom rails, giving excellent rot-resistance.

Patent Pending

Entry System U-Factor: As low as .17  
(Tested to NFRC specifications for a 6 panel door with wood frame.)

003, 770SOL

**SIGNET**<sup>®</sup>  
fiberglass doors

*Stunningly Realistic Wood Appearance!*

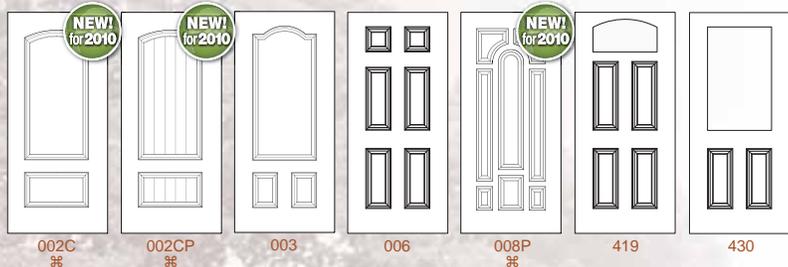

**Cherry Series**

**Mahogany Series**

**Oak Series**

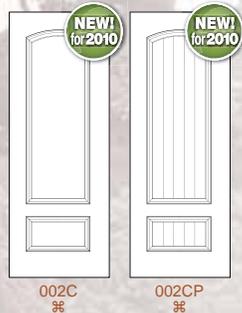

**Door Styles** See pages 12-53 for glass availability.

**Sidelite Styles**

**8' Doors**

**Signet Exclusive Advantages**

Stiles and rails are dovetailed and glued at each corner creating a structurally solid, integrated frame.

The 1/4" finger-jointed 4-ply hardwood strike stile provides unparalleled strength.

The 2 1/2" finger-jointed 3-ply hardwood hinge stile provides superior structural integrity.

Door edge is constructed with cherry, mahogany or oak wood matching the selected series.

Signet fiberglass entry systems come standard with an anodized bronze threshold with a complementary riser.

The inside door frame is hand stained or painted to match your door providing you with a consistent visual appearance. (Signet doors are also available with a Steel L-frame)

You can customize your entry by ordering a different series, style and finish on each side of your door!

**Custom Widths & Increased Height up to 8 FEET!**

Need a little more height or a little less width? We are pleased to offer customized door & sidelite widths and heights in 1/8" increments.

⌘ Available in Signet Cherry Series only

All Signet Fiberglass entry systems are ENERGY STAR qualified unless otherwise noted

**10-Year Finish Warranty**

for Signet Fiberglass Entry Systems

See pages 54-55 for Signet Fiberglass paint and stain finishes.

# Heritage™

fiberglass  
doors

feature enhanced woodgrain texture, improved definition embossing and a hardwood edge to prevent warping.

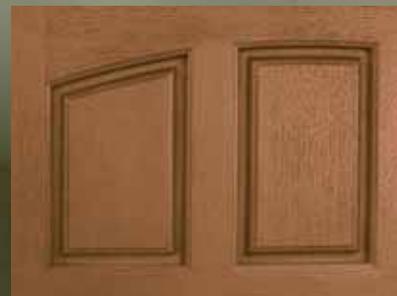

- **Variable-depth woodgrain** texture with **hand-applied stain** imitates a wood door appearance.
- **Specially engineered fiberglass door facings** will not dent and resist splitting, cracking and warping.
- **Improved definition panel profile** creates excellent shadow lines and distinct panel designs.
- **Square-edge design** offers an attractive wood door appearance.
- **Lock area is reinforced** to provide a solid mounting surface for decorative hardware.
- **Fingerjointed, 2-ply solid oak laminated stiles** are locally manufactured exclusively for ProVia Door for both hinge and strike sides and are proven to provide increased rigidity and structural integrity.
- A **high-performance, composite material** is utilized on all Heritage™ fiberglass bottom rails, giving excellent rot-resistance.

006, 160DLA-IGT, 612DLA

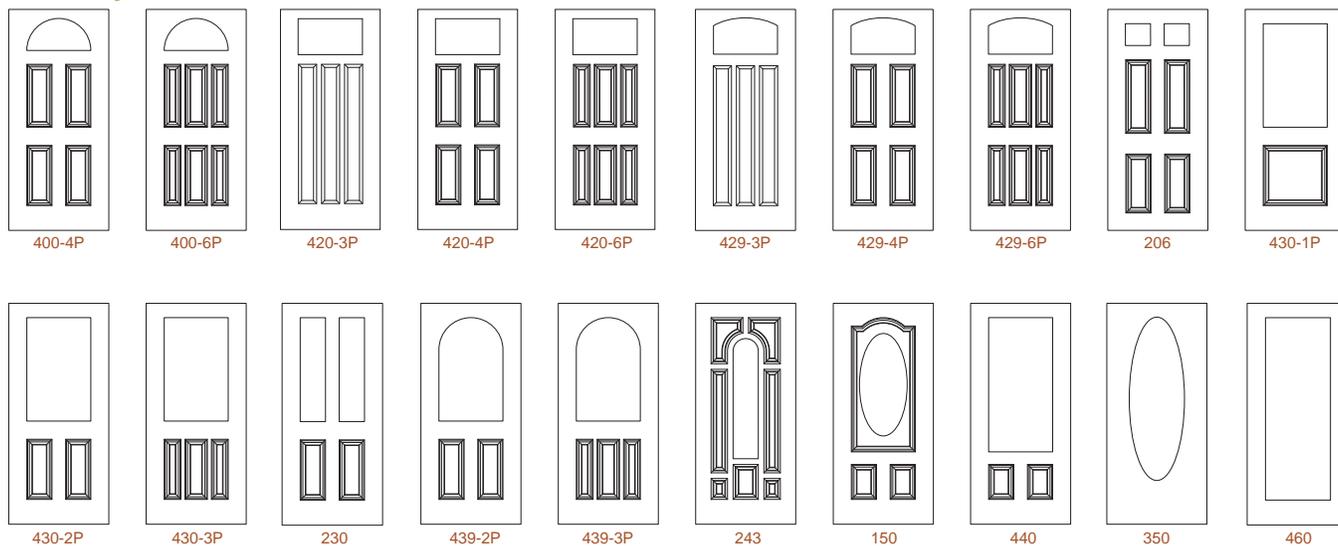

*Variable-depth woodgrain texture with hand-applied stain. May also be painted.*

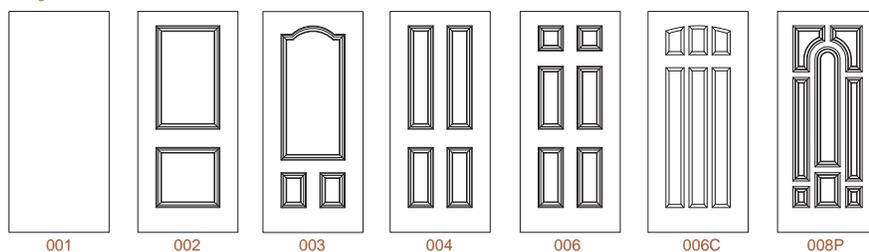

*The Craftsman style 006C features a Hemlock grain pattern. Also available in 420-3P and 429-3P.*

Entry System U-Factor: As low as .13  
(Tested to NFRC specifications for a 6 panel door with wood frame.)

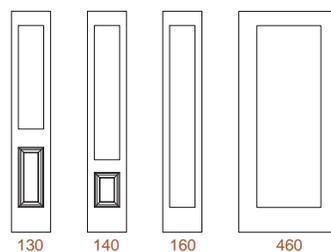

**Door Styles** See pages 12-53 for glass availability.

**Styles with No Glass**

**Sidelite Styles**

Heritage Fiberglass is available in Full Wood Frame only.

All Heritage Fiberglass entry systems are ENERGY STAR qualified unless otherwise noted

See pages 56-57 for  
Heritage Fiberglass paint  
and stain finishes.

# Legacy™

steel  
doors

features add up to a professional-class product. Whether you select Legacy Woodgrain Textured Steel or Smooth Steel, our entry systems will provide an elegant, durable and energy efficient addition to any home.

- **Composite top and bottom endcaps** increase rigidity and energy efficiency.
- The edges and face skin of our steel doors are **one continuous piece of steel** for strength and durability.
- Our 20-gauge steel doors give you **49% more galvanized steel** than a standard 24-gauge door.
- To reinforce the lock and deadbolt area, we **add a rigid composite lock block** to all of our steel doors.
- **Special adhesives/thermal barrier** reduce heat and cold transfer, while our tab and slot system of **mechanical interlocks** gives the door exceptional structural strength.
- The weatherstripping is made of **energy efficient Q-Lon**.

006, 160DLA-EG, 532DLA-IG

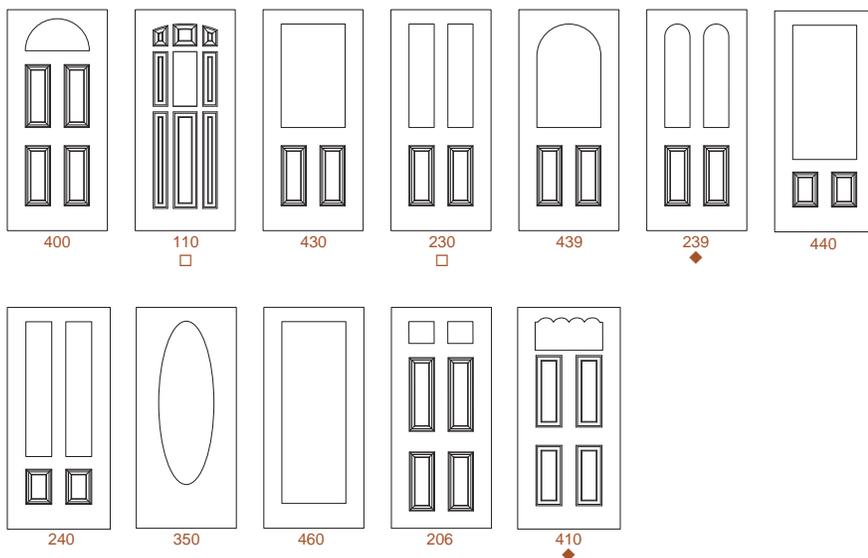

*The look of wood, the strength of steel.*

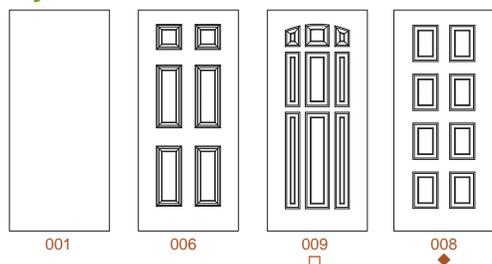

Patent Pending

Entry System U-Factor: As low as .20  
(Tested to NFRC specifications for a 6 panel door with wood frame.)

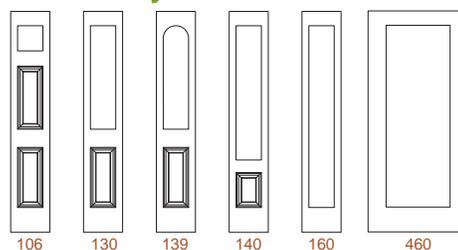

**Door Styles** See pages 12-53 for glass availability.

**Styles with No Glass**

**Sidelite Styles**

- Not available in 20-gauge Woodgrain Textured Steel
- ◆ Available in Smooth Steel only

You can customize your 20-gauge entry door by ordering different styles and finishes on each side of your door!

**Custom Widths & Heights!**

Need a little more height or a little less width? We are pleased to offer customized door widths and heights in 1/8" increments.

All Legacy Steel entry systems are ENERGY STAR qualified unless otherwise noted

See pages 56-57 for Legacy Steel paint and stain finishes.

# Inspirations

Art Glass

allows you to do just what the name suggests, let your doors and windows reflect the inspiration of your imagination with your choice of design and color!

770VIN, 150VIN (Timberland)

Available on Entry Systems, Patio Doors,  
Storm Doors and Windows.

*A ProVia Door Exclusive!*

**INSPIRATIONS™**  
art glass 

inspirations art glass

**Designs:**

The process begins with conceptual design. Our seven beautiful Inspirations Art Glass styles originated from the imagination of our in-house designers.

**Resin Bead:**

The design pattern is created on our computer software, and sent to a CNC machine which applies a resin bead to the surface of the glass in one of our four stylish colors.

**Color Fill:**

The color fill truly brings the glass to life. Five distinct color palettes are offered empowering you to perfectly reflect the personality of you and your home. Our craftsmen hand-apply this color fill to your glass.

**Our Guarantee:**

The resin bead and color fill are backed by our Lifetime Limited Warranty, and will not fade, blister or peel away from the glass.

*Ask to see our Inspirations Art Glass brochure for available styles and color palettes, or use ProVia Studio to design your dream door!*

# creating Comfort

All External Grid entry systems can be ENERGY STAR qualified depending on the glazing system you choose. This chart indicates which glazing system is required for ENERGY STAR qualification, as well as availability.

Door Styles	Glazing Systems			
Half-lite or Larger 460, 439, 430, 230,	TLK	TLA	DLA	DC
Smaller than Half-lite 410, 400	DC			

ENERGY STAR Qualified  
Refer to pg. 43 for Glazing Systems information

Since Low-E glass has a slight color tint, it is recommended that sidelites and transoms are ordered with the same glazing system as the door.

Signet Fiberglass

# Stains

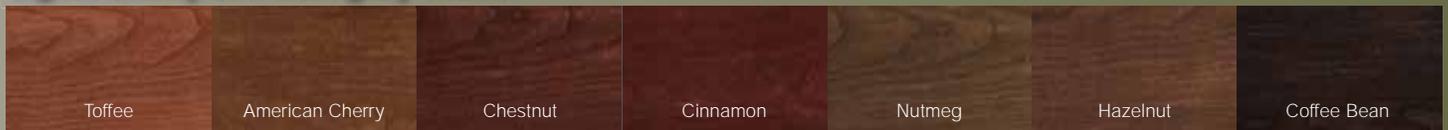

## DuraFuse™ Stain Finishing System

- 1 P<sup>3</sup> Fusion** Proprietary Preparation Processes ensuring unprecedented finish durability
- 2 Stain Finish** Hand-applied finish formulated exclusively for Signet fiberglass
- 3 UV Resistant Clear Coat** A layer of 2-part urethane, catalyst hardened clear coat with UV inhibitors is applied
- 4 Oven-Cured** Clear coat is oven-cured for lasting durability
- 5 Hand-Sanded** The door is sanded, preparing the surface for the second layer of clear coat
- 6 UV Resistant Clear Coat** A second layer of 2-part urethane, catalyst hardened clear coat with UV inhibitors is applied
- 7 Oven-Cured** The door is oven-cured a second time, creating a long-lasting, durable finish

### Signet Cherry and Mahogany Stains

To select stain color, refer to our color selector for accurate color representation.

### Signet Oak Stains

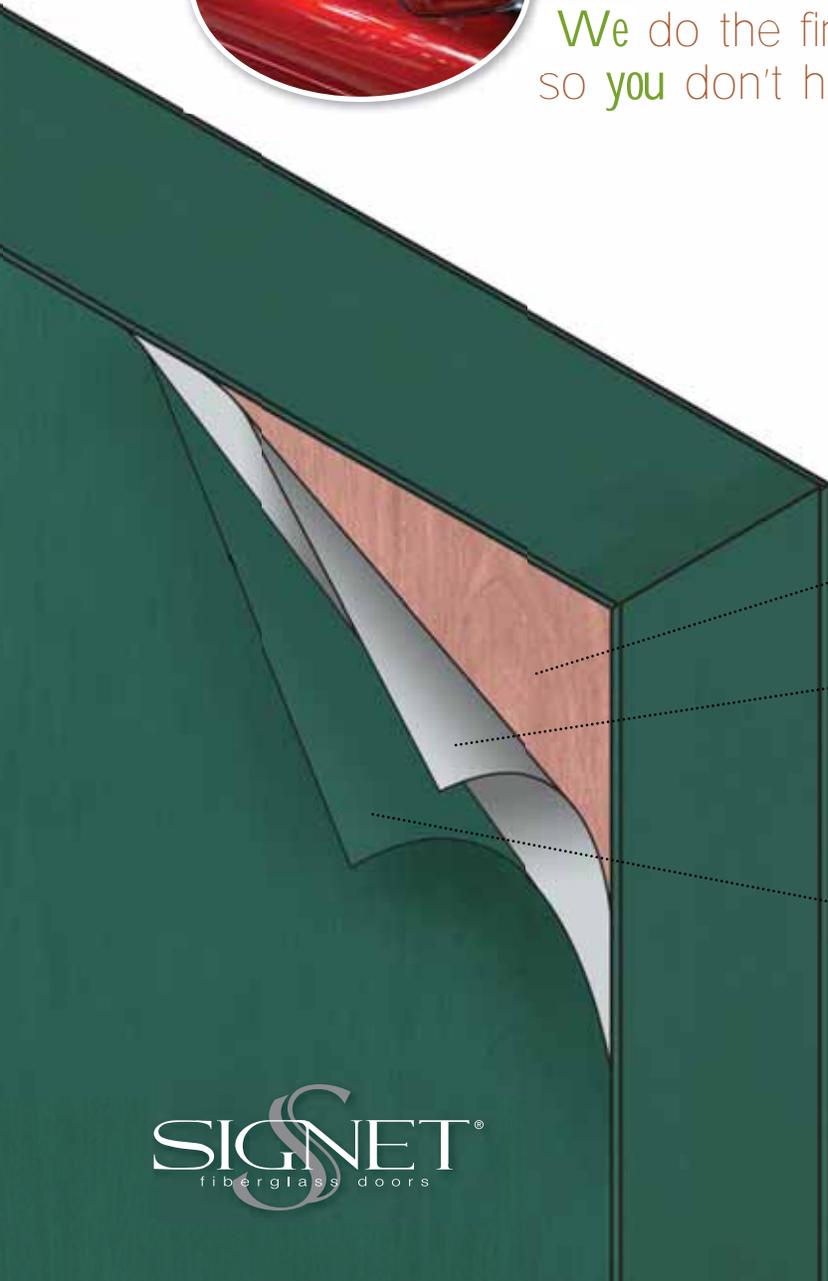

You wouldn't try to paint one of these yourself...so why should it be any different when it comes to painting or staining your entry door?

We do the finishing, so you don't have to!

# Signet Fiberglass Paints

## DuraFuse™ Paint Finishing System

- 1 P<sup>3</sup> Fusion** Proprietary Preparation Processes ensuring unprecedented finish durability
- 2 Base Coat (Prime Paint)** A 2-part urethane, catalyst hardened base coat is applied by a robotic reciprocating paint system
- 3 Oven-Cured** Base coat is oven-cured for lasting durability
- 4 Finish Coat** The door is then coated with a 2-part urethane, catalyst hardened finish coat
- 5 Oven-Cured** The door is oven-cured a second time, creating a long-lasting, durable finish

Rustic Bronze	Tudor Brown	Coal Black	Oak	Cherry

## Casing

Put the finishing touch on the inside of your entryway with our beautiful interior casing.

Available in Cherry, Mahogany, Oak or Poplar wood.

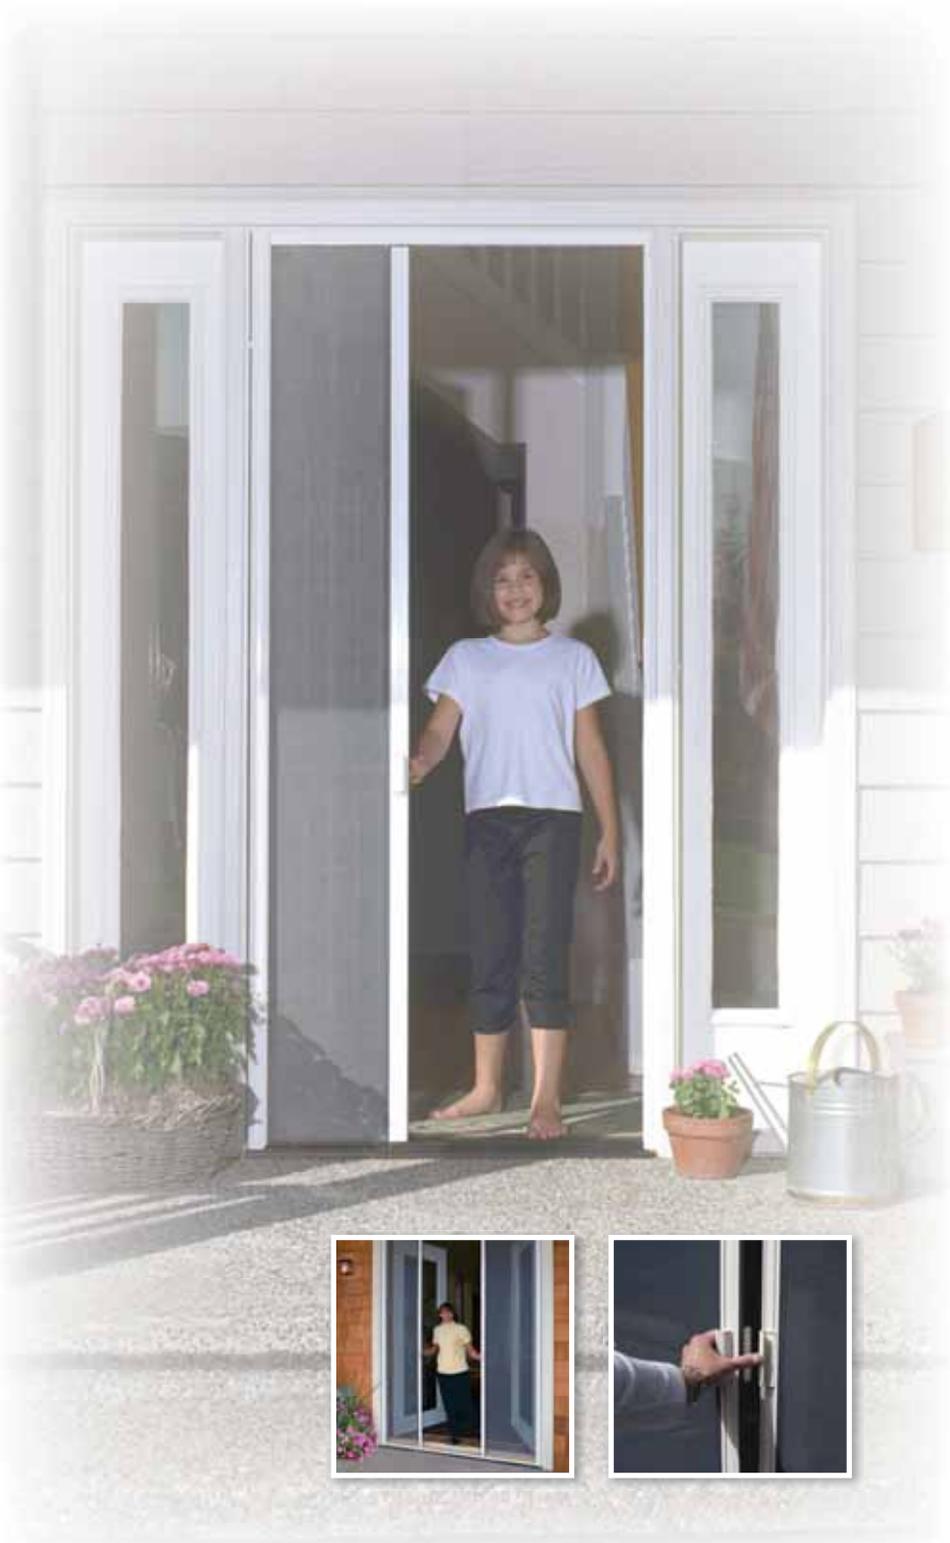

- 2 1/2" Modern
- 2 1/2" Colonial
- 3 1/2" Colonial

Available for any door configuration including transoms.

Signet stains are available on Cherry, Mahogany or Oak casing and Heritage stains are available on Oak or Poplar casing.

Paint finishes are available on Oak or Poplar casing.

### InVent™ Retractable Screens

Upgrade your door with our InVent Retractable Screens. Now our color matched retractable screen is factory installed and available in custom sizes

- Disappears into the natural recesses of the frame making them virtually invisible.
- Glides within the rails – no wheels or rollers to replace or lubricate.
- Screen expands upon impact – prevents damage or injury.
- Full length magnetic seal and a thick insect pile.
- A patent pending quiet, smooth brake system.
- Factory installed to ensure the most precise fit.
- Housing is color matched to all of our paint colors.
- Easy access to the screen cartridge makes screen replacement simple.
- Available for single, french or patio doors.
- Available in 8' doors.

Page 71 ProVia Door Price List

### Freedom Pet Door

# Designer

## Patio Door Systems

are swinging patio door systems available in 2 or 3-lite units and constructed of the same solid quality Signet™ and Heritage™ Fiberglass, and Legacy™ Woodgrain Textured or Smooth Steel doors as our entry door units.

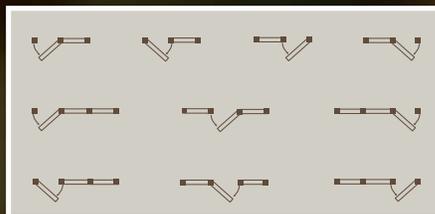

460DLA-IGT

### Options:

**Finishes** - *Patio doors are available in all finishes shown on pages 54-57.*

**Optional InVent Retractable Screen** - *See page 67.*

**Door Swing** - *(Doors viewed from above. Inswing only.)*

# Prestige™

## Vinyl Patio Doors

are tested against the most stringent industry standards for air and water infiltration, wind-load resistance, ease of operation, forced entry and much more. This means you'll have lower heating and air-conditioning costs, easier cleaning, low maintenance and increased comfort.

### 8000 Series Features

- ComforTech™ TLK triple glazed warm edge glazing system with high performance Low-E Krypton glass
- Woodgrain interior
- Secondary ventilation lock
- Multi-point locking Bright Brass or Satin Nickel handleset with keylock

### 7000 Series Features

- ComforTech™ DLA warm edge glazing system with high performance Low-E Argon glass
- Secondary ventilation lock
- Multi-point locking color matched handleset on white and beige patio doors

Our Prestige Patio Door is ENERGY STAR Qualified unless otherwise noted.

Strong, multi-chamber profiles and 5 $\frac{7}{16}$ " frame depth offer greater thermal efficiency and increased sound abatement.

Patented sliding system features four adjustable 1" wheels per operating panel to ensure smooth, easy and quiet operation.

**NEW!**  
for 2010

Suspended by ball bearing rollers this top-hung heavy duty aluminum screen frame reduces binding, creating effortless operation.

**NEW!**  
for 2010

Spring-loaded latch system automatically engages upon closing. Latch also includes interior locking feature. Fiberglass screen is standard. Heavy-duty fiberglass or aluminum screen is optional.

Sill is reinforced with galvanized steel. Pair that with our patented water draining system, and it results in an efficient and durable base for our patio door.

Fixed and mobile panel rails meet and interlock perfectly, making removal from the outside virtually impossible. Lower sill design provides safer entry and exit.

Galvanized steel reinforced panels ensure rigidity and stable operation.

The vent lock adds peace of mind when you want to leave the door open for ventilation yet keep would-be intruders out.

prestige patio doors

### A Tight Seal Eliminates Noise and Leaks

*Triple weatherstripping at side stiles and 3-point contact weatherstripping at meeting stiles improve insulation, virtually eliminating air infiltration.*

# Prestige™

Options

mortise

# Hardware

adds a special touch to your storm door with a solid brass handleset to suit your style. Our mortise hardware conveniently allows you to use the same key for your storm door and your ProVia entry door!

Page 104 ProVia Door Price List

Satin Nickel Sierra Mortise Hardware

Our mortise hardware features a multi-point locking system for added strength and security not found on typical consumer-grade storm door hardware.

Mortise hardware requires a factory handleset prep and is not available on expander and double french doors.
